The idea is JOY. When was the last time you felt real joy--that down-to-your-toes tingle of pure delight? Bigger than contentment, more intense than happiness, it's a feeling so vast it almost overwhelms you. And however fleeting, joy is the ultimate expression of gratitude and appreciation. It's what fills you up and fills you out, connecting you to something larger than yourself and leaving you staggering with wonder.

JOHN GLENN

When the U.S. Manned Space Program began in 1958, John Glenn was selected to be one of the original seven Mercury astronauts. When Glenn successfully piloted his "Friendship 7" spacecraft three times around Earth in just less than five hours on February 20, 1962, he became an instant national hero. In fact, he may have become too heroic for his own good--although Glenn was anxious to go up again, President Kennedy reportedly pulled him from flight status, worried what would happen if a figure of such adulation should perish in a future flight.
